Allowable Subject Matter

1. Claims 1-7 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record teaches multilevel successive elimination algorithm (MSEA). However, none anticipates or renders obvious the following limitations as recited in independent claims 1 and 6:

"selecting an initial candidate block among a plurality of candidate blocks in an image frame for computing an initial SAD";

"selecting four vertex candidate blocks placed at vertexes of a imaginary perfect square based on the initial candidate block as the center of the imaginary perfect square, wherein the imaginary perfect square is formed by using neighbor blocks adjacent from the initial candidate block";

"extracting elimination levels of the four vertex candidate blocks by performing the MSEA";

"predicting elimination levels for side candidate blocks which are located at sides of the perfect square based on a spatial correlation between elimination levels of candidate blocks and the extracted elimination levels of the four vertex candidate blocks"; and

"extracting elimination levels of the side candidate blocks by performing the MSEA based on the predicted elimination level".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
